### NEW QUESTION: 1

You need to recommend a solution for the user at Contoso to authenticate to the cloud-based sconces and the Azure AD-integrated application. What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

#### Answer:

Explanation:

Explanation

### NEW QUESTION: 2

Why should a regular user edit his personal crontab by using the command crontab instead of just editing his crontab file manually?

- A. Because crontab starts the cron daemon in case it is not running due to no other crontab entries existing.
- B. Because crontab collects information about all users crontabs and recommends similar commands used by other users of the system.
- C. Because user specific crontab entries are stored in a special directory which is maintained by the cron daemon and not writable for regular users.
- D. Because user specific crontab entries are stored in a common database and must be extracted before editing.

**Answer: C**

### NEW QUESTION: 3

An administrator wants to use spare memory from an HP Proliant G7 to populate an HP Proliant Gen8 server. What should you recommend?

- A. Advise the customer that HP Memory from previous generation servers is not fully compatible with Gen8 servers
- B. Populate G7 and Gen8 memory modules in different memory controllers
- C. Advise the customer that the G7 memory will offer the same performance as HP Smart Memory
- D. Populate Gen8 memory modules before populating G7 memory modules within the same channel

**Answer: A**
