NEW QUESTION: 1

Multiple users are reporting that they are unable to access the network. The ENTIRE network is shown in the diagram. PCs are not statically assigned IP addresses. The following devices will display settings:

Review the settings and select the box in the diagram that identifies the device causing the issue. Only one device can be selected at a time.

After checking the device that is causing the issue, select the second tab in the lower left hand corner. Identify the reason as to why some users are unable to access the network.

Instructions:

When the simulation is complete, select the Done button to submit.

Part 1

Part 2

Identify the reason as to why some users are unable to access the network.

- A. The site-to-site router was configured with the incorrect ACL.
- B. STP had disabled some of the ports on the switch.
- C. WAN and LAN ports are reversed on the router.
- D. Workstation(s) are plugged into switch ports configured with half duplex.
- E. The NIC driver is not installed.
- F. DHCP server scope is full and is not providing IP addresses.

G. A wireless client is unable to associate to the AP.

Answer: G

NEW QUESTION: 2

This question consists of an item pertaining to possible deficiencies in an accountant's review report.

Jordan & Stone, CPAs, audited the financial statements of Tech Co., a nonissuer, for the year ended

December 31, 20X1, and expressed an unqualified opinion. For the year ended December 31, 20X2, Tech

issued comparative financial statements. Jordan & Stone reviewed Tech's 20X2 financial statements and

Kent, an assistant on the engagement, drafted the accountants' review report below. Land, the engagement supervisor, decided not to reissue the prior year's auditors' report, but instructed Kent to

include a separate paragraph in the current year's review report describing the responsibility assumed for

the prior year's audited financial statements. This is an appropriate reporting procedure. Land reviewed

Kent's draft and indicated in the Supervisor's Review Notes below that there were several deficiencies in

Kent's draft.

Accountant's Review Report

We have reviewed and audited the accompanying balance sheets of Tech Co. as of December 31, 20X2

and 20X1, and the related statements of income, retained earnings, and cash flows for the years then

ended, in accordance with Statements on Standards for Accounting and Review Services issued by the

American Institute of Certified Public Accountants and generally accepted auditing standards. All

information included in these financial statements is the representation of the management of Tech Co. A

review consists principally of inquiries of company personnel and analytical procedures applied to financial

data. It is substantially less in scope than an audit in accordance with generally accepted auditing

standards, the objective of which is the expression of an opinion regarding the financial statements taken

as a whole. Based on our review, we are not aware of any material modifications that should be made to

the accompanying financial statements. Because of the inherent limitations of a review engagement, this

report is intended for the information of management and should not be used for any other purpose. The

financial statements for the year ended December 31, 20X1, were audited by us and our report was dated

March 2, 20X2. We have no responsibility for updating that report for events and circumstances occurring

after that date.

Jordan and Stone, CPAs

March 1, 20X3

Supervisor's Review Notes

There should be no reference to the prior year's audited financial statements in the first (introductory) paragraph.

A. Correct

B. Incorrect

Answer: A

Explanation:

Explanation/Reference:

Explanation:

Correct. The auditors are issuing a review report this year and issued an audit opinion last year. A review

report gives less assurance than an audit. The auditors should not make reference in the first paragraph to

the fact that they audited last year's financial statements even though they are being comparatively shown,

because it may mislead the reader of the financial statements as to the auditors' degree of assurance on

this year's financial statements.

NEW QUESTION: 3

Which Cisco technology uses software-defined segmentation to simplify the provisioning of network access, accelerate security operations, and consistently enforce policy on the network?

A. Cisco Stealthwatch Engine

B. Cisco Platform Exchange Grid

C. Cisco Tatos

D. Cisco TrustSec

Answer: D
